

# Physics 2000 Workshop

Tuesday, Jan 11, 2005 2:00 - 3:30 PM

[Physics 2000](#) is an introductory physics course developed by E. R. Huggins. The entire text, movies, and other materials are available on one CD for \$10. Print version of the text is \$20.

A hammer hits a piano string 14% of its length from one end. This damps out the 7th harmonic, which is dissonant.
