

### What is PIR Live Event?

PIR Live Event webinars engage classrooms across Canada in dynamic online discussions about a range of topics. Each webinar features a live Q&A and/or virtual tour with a different subject matter expert — and it's **FREE** to participate. **96% of teachers say they would recommend PIR Live Event!**

### How do these connections work?

PIR Live Event webinars use Zoom software (supplied and supported by Partners In Research Canada) to facilitate these connections. Students in classrooms across Canada join the discussion by submitting their questions during the webinar and getting answers in real time from our guest expert. PIR Live Event webinars are interactive, dynamic opportunities to bring virtual experts and other Canadian classrooms right to your door... at no cost!

### What equipment is required to participate?

All you need is a computer or tablet with an internet connection and speakers.

### How can I find out what topics are being featured?

View our calendar of upcoming webinars or sign up for our weekly e-newsletter at [www.pirweb.org/en/pir-live-event/](http://www.pirweb.org/en/pir-live-event/).

### What if I can't join for the webinar's live broadcast?

If you can't join a webinar at the scheduled time, you can submit your questions in advance to [LiveEvent@pirweb.org](mailto:LiveEvent@pirweb.org) and watch the video recording on the [Partners In Research YouTube channel](#) to hear the answers at a convenient time for your class.

### Who can I contact?

If you have further questions, contact us at [LiveEvent@pirweb.org](mailto:LiveEvent@pirweb.org).
